Hi Phil, yes I remember meeting you. Thanks for connecting those dots for me. I have been in Alaska all this week and have many more important trips I should make, one the first week of April and another in May so I am burning through the travel budget. Your symposium looks like a big help to me but I probably won't be able to get to Alaska that week. Hopefully we have AK based folks who can be there.

Rick, Ann Rappoport and I introduced ourselves after Dennis spoke at the forum on the environment. We are planning on video conferencing this to several University of Alaska sites and we are also looking into streaming to USFWS refuge offices in Alaska. I will ask our experts if we can do more.

Hello Phil, I am with the EPA in Seattle, and am leading our Watershed Assessment of Bristol Bay. I am very interested in your symposium but have to closely budget my travel to AK. Are you planning to make this Symposium available as a webinar? It would be great to be able to sit in from Seattle. Thank you

Understanding Habitat and the Science of Sustainability

Phil Brna at USFWS sent it to me, so I would contact him, or Tim Troll,  
at  
the Nature Conservancy. Phil Brna is at

Who could we contact to see if this could be broadcast as a webinar so  
we could attend without traveling?

Hi all,

I assume you have word of this.

Jeff

This symposium is a cooperative effort of the USFWS, ADF&G, The Nature  
Conservancy, and Alaska Sea Grant. It is free to all. Please feel free

to distribute this announcement.
